# YOUR solutions are indispensable for the production of the future!

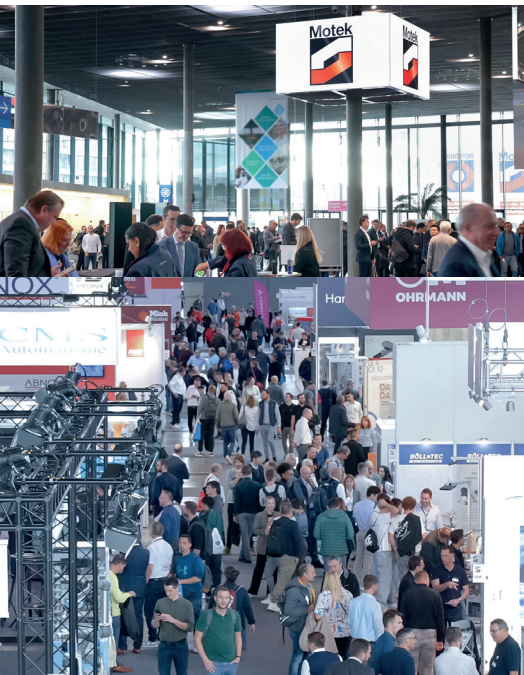

Motek/Bondexpo is the ideal business platform for YOUR solutions! The traditional trade fair covers the entire process sequence for economical production and assembly automation – from components and modules, right on up to subsystems and complete solutions. It's targeted at **manufacturing companies in all sectors** – machine building, equipment and systems manufacturing, automotive engineering and vehicle production, sheet metal working, plastics processing, metalworking and

processing, woodworking, electronics and electrical engineering, as well as users in the fields of laboratory automation, healthcare and medical technology. Profitability, efficiency and flexibility are top priorities for all of these target groups in order to remain **successful within the market**. Automation is thus the key objective, and it has to be based on future-oriented solutions and easy to implement. This is what Motek/Bondexpo is all about. Be there as a supplier!

## Motek/Bondexpo's Big

-  Motek/Bondexpo is the original specialised trade fair for the automation of industrial production and assembly.
-  As a landmark event, Motek/Bondexpo embodies the continuous know-how boost flowing from the core of German machinery and systems manufacturing to the globalised world.
-  The uniquely focused, holistic diversity of solutions for process-optimised, networked assembly workflows is driving industrial value creation.
-  Multi-faceted production layouts experience pioneering, networked, interconnectable updates at Motek/Bondexpo.
-  The outstanding, solid business community at Motek/Bondexpo advances future-oriented projects in a routined manner by means of an individual exchange of ideas experience.

### Motek/Bondexpo-Nomenklatur (short survey)

- Assembly systems and basic systems
- Handling technology
- Process technology for joining, machining, inspection and identification
- Components for special machine manufacturing
- Software and services

# Marketing Services at a Glance

## Schall Inclusive

Schall makes trade fairs for markets – significant, internationally established trade fairs which have been around for many decades. With their clear focus on content, each of our technically specialised events is held at an ideally located trade fair venue in Europe’s respectively leading technology regions. It’s especially important for us to provide exhibitors with clearly defined trade fair offerings, including practical marketing services. After all, agreements are always best when they’re simple – and with us **simply everything is included.**

### The exhibitor package includes all of the following:

- Unlimited number of co-exhibitors
- Second-storey free of charge
- Free exhibitor IDs depending on booth size
- Unlimited number of expert visitor tickets, digital
- Presence at the exhibitor terminals at the trade fair facility
- Included in the exhibition hall floor-plans at the entrances
- Entry in the trade fair directory
- Four nomenclature entries for structured product allocation
- Visitor information in PDF format online
- Listing in the exhibitor index on the trade fair website
- Exhibitor-profile with logo, image, video, product overview, product groups, new products, job offerings, social functions and contact data
- Display of new products and trade fair highlights in stream news & stories
- My trade fair day service tool
- YouTube videos with exhibitor statements
- Press releases with exhibitor statements in the press folder
- Agile social media working

### Key trade fair figures for 2024

409 exhibitors from 19 countries and  
18,948 visitors from 45 countries on  
31,500 square metres of overall exhibition floor space.

### High levels of visitor quality

19% decisive  
39% part-decisive  
24% advisably

### Primary professional interests of the visitors and their job functions

64% Assembly systems and basic systems  
54% Handling technology  
49% Process technology for joining, machining, inspection and identification  
48% Components for special machine manufacturing  
26% Software and services  
18% Others

10% Managing director, board member, etc  
3% Authorized signatory, head of main department  
18% Head of department, foreman  
30% Engineer, design engineer  
17% Other employee  
8% Skilled worker  
14% Others

more than one answer possible

## Clear-Cut Thematic Structure and a Pragmatic Concept

Future-proof, efficient automation. This is where Motek/Bondexpo 2025 comes in. Future-proof, efficient solutions and systems help manufacturing companies implement automation technology quickly and easily. Only in this way can users **benefit** from automation **in the long run**. Manufacturing companies need cost-effective solutions that make efficient use of resources.

The trade fair's range of topics is clearly structured: networked, smart production components and systems / assembly assistance systems and mutual work with co-bots / parts staging and feeding / solutions for **easy implementation** and commissioning including planning and simulation software / object recognition and image processing for inline parts detection for the purpose of position sensing and control, as well as visualisation solutions / AI technologies for supporting processes in various applications / modern bonding technologies.

# Reasons to be Part of #Motek2025

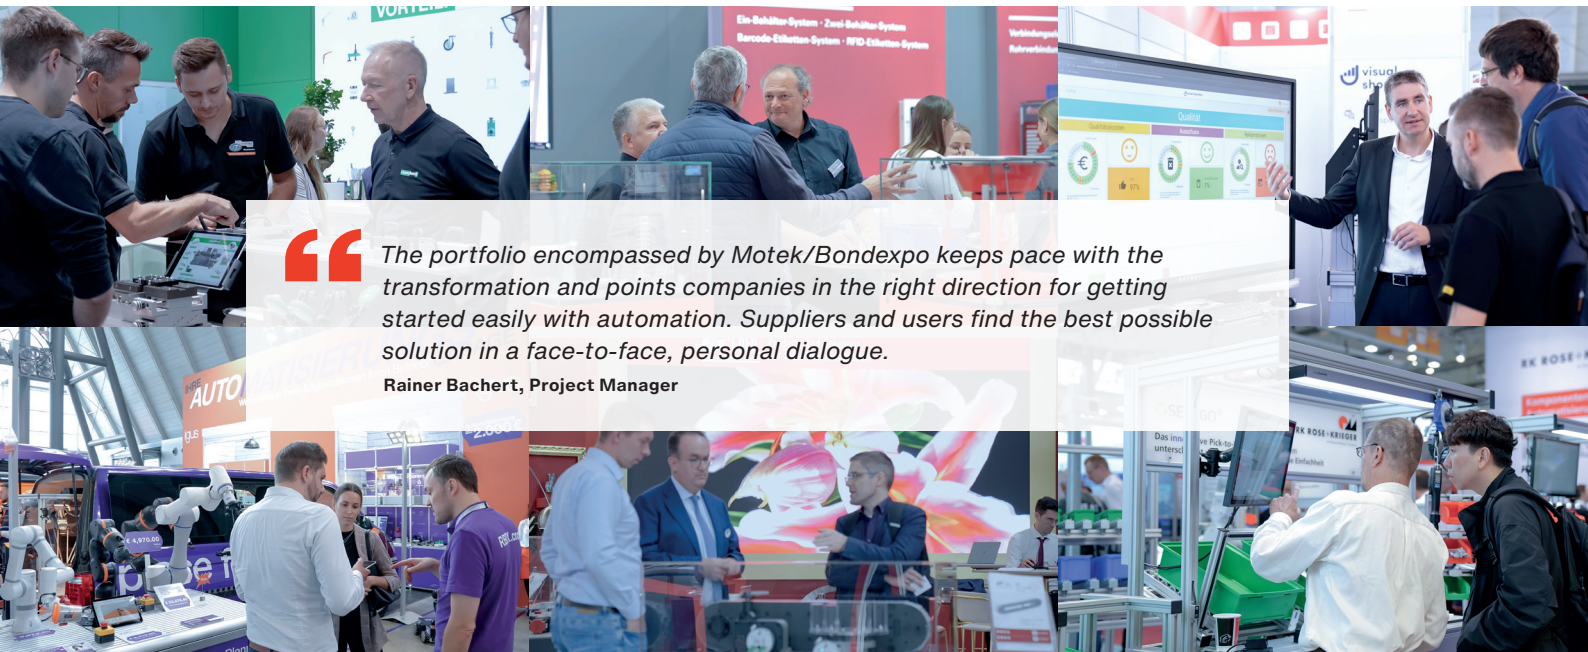

- 1** The exhibitors at Motek/Bondexpo offer the key technologies which are currently in demand for competitive production in all manufacturing industries.
- 2** The digital transformation of practical production methods will be demonstrated live at Motek/Bondexpo.
- 3** Experiencing the respective technologies with all of one's senses and intensive discussions provide decision makers from management and engineering with support for their investment projects.
- 4** As an international trade fair, Motek/Bondexpo provides an ongoing know-how boost from the heart of the German machinery and equipment manufacturing industry to the globalised world.
- 5** A focused community of experts comes together at an established marketplace at Motek/Bondexpo. It's the most important trade fair of the year for many participants.

### Exhibitor statements & trade fair films Motek/Bondexpo 2024

 [Stand-Enquiry](#)

 [Booth Registration](#)

**“** The portfolio encompassed by Motek/Bondexpo keeps pace with the transformation and points companies in the right direction for getting started easily with automation. Suppliers and users find the best possible solution in a face-to-face, personal dialogue.

Rainer Bachert, Project Manager

## Bondexpo Rounds Off the Trade Fair with Modern Bonding Technology

In the meantime, the complementary Bondexpo international trade fair for bonding technology has been fully integrated into the trade fair concept, because modern production would be inconceivable without industrial joining and bonding technology, which will continue to gain in importance. Due to the fact that bonded products improve both energy and material efficiency in comparison with alternative products, they're an important building block

on the way to sustainable, resource-efficient production. Bondexpo will showcase **stand-alone and system solutions** for joining and fastening components and modules in pre-assembly and final assembly – with a consistent focus on the industrial process sequence involving joining and fastening by means of adhesive bonding, encapsulation, sealing and foaming.

 [Stand-Enquiry](#)

 [Booth Registration](#)

Modern bonding technology and joining processes make a significant contribution to the development of new, innovative products and provide the industry sector with the opportunity of opening up new markets in all segments.

 *Modern bonding technology is indispensable in the manufacturing industries. It's regarded as a key factor. That's why Bondexpo is an important supplementary element of the trade fair duo.*

Rainer Bachert, Project Manager

## Fresh Ideas for Future Production at the Startup Area

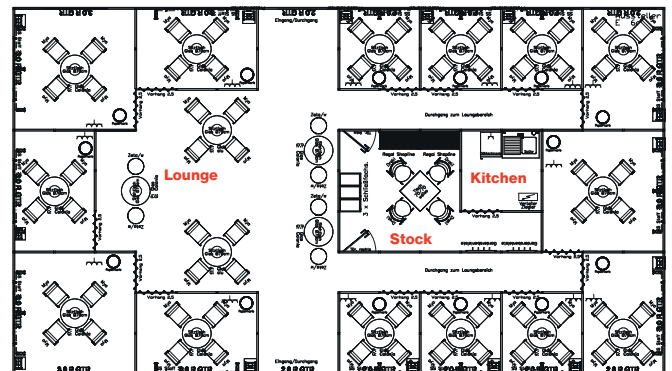

Lots of young companies are bringing a breath of fresh air to industrial production with new, forward-looking ideas. With its Start-up Area, Schall trade fair promoters have meanwhile created a suitable platform for establishing contact with other suppliers, expert visitors and potential customers. Many success stories have been launched to the market here at Motek/Bondexpo. Startups can book an **attractive all-round carefree package** including booth setup and marketing. The prerequisite for participation is plainly evident: exhibited products must be relevant for production and assembly automation and provide customers with added value.

 [Registration for Start-up Area](#)

## Communal Booth - Individual Presence, Joint Services

Motek/Bondexpo stands for outstanding engineering services in the field of efficient, automated manufacturing processes. Are you ready to present your solutions at the communal booth organised by this well-established business platform and generate **valuable contacts**? Benefit from a comprehensive, all-round carefree package which includes attractive services for booth setup and marketing, as well as shared use of kitchen, storage and lounge areas. Full information is available as a PDF file.

 [Registration for Communal Booth](#)

### Top Benefits for Start-ups & Exhibitors at the Communal Booth:

- Increased **public awareness** and enhanced **brand image** thanks to the enormous scope of Motek/Bondexpo at the international level.
- Highly beneficial and long-lasting business contacts can be established here in three days.
- Decision-makers integrate innovative solutions from Motek directly into their investment projects.

# More than just a trade fair #Motek2024
